

SCOTTISH JOURNAL OF GEOLOGY

The primary aim of the *Journal* is to publish original papers on Scottish geology, but original papers of general or specialist interest are acceptable. Short communications, and discussions of earlier papers are invited and will be published quickly; other contributions should not normally exceed 20 published pages in length. Review papers will also be considered, but it is suggested that authors contemplating submitting these should at an early stage get in touch with the editorial board to discuss content, suitability and date of publication. Invited reviews are also published.

INSTRUCTIONS FOR CONTRIBUTORS

Detailed instructions for contributors are published in the *Scottish Journal of Geology* Volume 23, Part 3, pp. 319–26, 1987 but see Volume 25, Part 2 for a notice on the change in page size from Volume 26 onwards. Intending authors are strongly recommended to ensure that the format of their contributions complies with these instructions, as this will enable processing of their contributions with the minimum possible delay.

Copies of the instructions can be obtained by writing to the Editor, *Scottish Journal of Geology*, 139 Leith Walk, Edinburgh, EH6 8NS.

ABBREVIATION OF TITLES OF PERIODICALS

Abbreviations of periodical titles in contributors' references should now conform to the British and International Standard described in *BS 4148: The abbreviation of titles of periodicals; Part 1. Principles* (1970); *Part 2. Word-abbreviation list* (1975), published by the British Standards Institution. This specification replaces the old *World List of Scientific Periodicals* and its sequels.

The particular capitalisation and punctuation rules adopted for the *Scottish Journal of Geology* are:

(1) the first letter of each element of the title abbreviation is capitalised, (2) the remainder of each element is printed in lower case, (3) a full stop and a space are required after all word abbreviations, and (4) the periodical title is italicised. A few examples illustrate the change in specification:

<i>Nature, Lond.</i>	<i>Nature</i>
<i>Norg. geol. Unders.</i>	<i>Nor. Geol. Unders.</i>

Apart from these modifications, references should be compiled in accordance with the previously published instructions (see above).
