

Scottish Journal of Geology
Volume 27, Part 1,
Pages 1–80, 1991

CONTENTS

CLARK, N. D. L. <i>Palaemysis dunlopi</i> Peach 1908 (Eocarida, Crustacea) from the Namurian (Carboniferous) of the western Midland Valley	I
FLINN, D., MILLER, J. A. and RODDOM, D. The age of the Norwick hornblendic schists of Unst and Fetlar and the obduction of the Shetland ophiolite	II
ROBERTSON, S. Older granites in the south-eastern Scottish Highlands	21
BRAND, P. J. <i>Anthraconaia irvinensis</i> sp. nov., a new Westphalian B bivalve with limited geographical and stratigraphical range	27
EVANS, D., HALLSWORTH, C., JOLLEY, D. W. and MORTON, A. C. Late Oligocene terrestrial sediments from a small basin in the Little Minch	33
LOWE, J. J. and CAIRNS, P. New pollen-stratigraphic evidence for the deglaciation and lake drainage chronology of the Glen Roy–Glen Spean area	41
FETTES, D. J., LESLIE, A. G., STEPHENSON, D. and KIMBELL, S. F. Disruption of Dalradian stratigraphy along the Portsoy Lineament from new geological and magnetic surveys	57
SHORT COMMUNICATIONS	
LIVINGSTONE, A. and BAIRD, W. J. An occurrence of native sulphur near Craignish, Argyllshire	74
FLOYD, J. D. and STIVEN, G. Rare temporary exposure of the Southern Upland Fault near Abington, Strathclyde	75
