

Scottish Journal of Geology
Volume 27, Part 2,
Pages 81–176, 1991

CONTENTS

STEWART, A. D. Geochemistry, provenance and palaeoclimate of the Sleat and Torridon groups in Skye	81
PIPER, J. D. A. AND POPPLETON, T. J. Palaeomagnetic conglomerate tests on basal Stoer Group sediments, NW Scotland	97
STRACHAN, P. and EVANS, D. A local deep-water sediment failure on the NW slope of the UK	107
ABRAHAM, D. A. and RITCHIE, J. D. The Darwin Complex, a Tertiary igneous centre in the Northern Rockall Trough	113
MOHR, P. The Síofra Gabbro, West Connacht, Ireland	127
TREAGUS, J. E. Fault displacements in the Dalradian of the Central Highlands	135
GOODMAN, S. The Pannanich Hill Complex and the origin of Crinan Subgroup migmatites in the North-eastern and Central Highlands	147
DEMPSTER, T. J. and BLUCK, B. J. Xenoliths in the lamprophyre dykes of Lomondside: constraints on the nature of the crust beneath the southern Dalradian	157
SHORT COMMUNICATIONS	
RUSHTON, A. W. A. and STONE, P. Terrigenous input to the Moffat Shale sequence, Southern Uplands	167
LITTLE, J. A. Calcite concretions in Pleistocene soils: a discussion	171
