

Scottish Journal of Geology
Volume 31, Part 1
Pages 1–96, 1995

CONTENTS

HULL, J. H. The first hundred	1
JOHNSTON, J. D. Pseudomorphs after ikaite in a glacio-marine sequence in the Dalradian of Donegal, Ireland	3
WRIGHT, D. T. and KNIGHT, I. A revised chronostratigraphy for the lower Durness Group	11
PEARCE, R. B. The geochemistry of Llandovery and Wenlock age K-bentonites in the Southern Uplands	23
ZALASIEWICZ, J. The structure and affinities of <i>Lapworthograptus grayae</i> (Lapworth, 1876)	29
CARROLL, S. and TREWIN, N. H. <i>Cornulatichnus</i> : a new trace fossil from the Old Red Sandstone of Orkney	37
McMILLAN, A. A. and BRAND, P. J. Depositional setting of Permian and Upper Carboniferous strata of the Thornhill Basin, Dumfriesshire	43
HALL, A. M. and JARVIS, J. A multiple till sequence near Ellon, Grampian Region: T. F. Jamieson's 'indigo boulder clay' re-examined	53
HALL, A. M., DULLER, G., JARVIS, J. and WINTLE, A. G. Middle Devensian ice-proximal gravels at Howe of Byth, Grampian Region	61
RUSSELL, A. J. Late Devensian meltwater movement and storage within the Ochil Hills, central Scotland	65
WALDEN, J., SMITH, J. P., DACKOMBE, R. V. and ROSE, J. Mineral magnetic analyses of glacial diamicts from the Midland Valley of Scotland	79
DISCUSSION	
CARTWRIGHT, I. <i>Discussion on</i> Origin of felsic sheets in the Scourian granulites: new evidence from rare earth elements; <i>reply by</i> ROLLINSON, H. R.	91
BOOK REVIEWS	95
