

## Scottish Journal of Geology

The primary aim of the *Journal* is to publish original papers on Scottish geology, but other topics of general or specialist interest are acceptable. Contributions should not normally exceed 12 journal pages; shorter papers are likely to be published more rapidly. 'Short Communications' of up to four pages need not be preceded by a 'synopsis'. Discussions of papers that appear in the *Journal* are invited and will be published quickly. Review papers are welcome, but authors contemplating submitting these should, at an early stage, contact the editorial board to discuss content, suitability and possible date of publication.

### Instructions for contributors

Detailed instructions for contributors are published in the *Scottish Journal of Geology* Volume 29, Part 1, pp. 107–11. Intending authors must ensure that the format of their contributions complies with these instructions, as this will enable processing of the contributions with the minimum possible delay. Please note that periodical titles are now printed in full.

**Discs:** Discs of word-processed papers will be requested by the editor when the paper is accepted. Do not send the disc until requested to do so. Further details are available from the Staff Editor.

More information, including contents of recent issues can be found on the Journal's WWW page:

### Back issues

Certain back numbers of the *Transactions of the Edinburgh Geological Society*, *Transactions of the Geological Society of Glasgow* and *Scottish Journal of Geology* are still available. A list of the prices and parts may be had on application to the secretaries of the Societies.

### Book reviews

As space permits, the *Journal* will publish independent reviews of printed works that have a clear relevance to the geology of Scotland.
