

INDEX

Volume 35, 1999
Authors

- BALLANTYNE, C. K. 97–106
BATCHELOR, R. A. 71–78, 89
BARRAS, B. F. 131–144
BEDDOW-STEPHENS, B. 157–178
BENNETT, M. R. 79–86
COOPER, M. R. 179–186
DROOP, G. T. R. 31–50
FAKES, R. D. 65–70
FARRIS, M. A. 25–30
FERNANDES, L. A. D. 31–50
FLOYD, J. D. 15–24, 57–62
GILLANDERS, R. J. 65–70
GREEN, P. M. 145–156
HARDIS, V. L. 179–186
HESSELBO, S. P. 85–88
HILL, P. G. 65–70
HOLE, M. J. 89
HUDSON, J. D. 63–64
HYSLOP, E. K. 65–70
JENKYN, H. C. 85
MEIGHAN, I. G. 179–186
MENDUM, J. R. 145–156
MITCHELL, W. I. 179–186
MORTON, N. 85–88, 119–130
OATES, M. J. 25–30, 85–88
PAUL, M. A. 131–144
PHILLIPS, E. R. 57–62
PLANT, J. A. 145–156
PRESTON, R. J. 89
RUSHTON, A. W. A. 15–24
SHAW, S. 31–50
STONE, P. 145–156
TANTRIGODA, D. A. 51–56
THOMAS, C. W. 1–14
TORRENS, H. S. 25–30
WAKEFIELD, M. I. 63–64
WILLIAMS, M. 15–24
YOUNG, G. M. 107–117

Subjects

- Aberdeenshire, calc–alkaline dykes 1–14
Algal Bed, Lealt Shale Formation, Eigg 63–64
ammonites 119–130
Antrim Lava Group 179–186
Antrim Plateau 179–186
Applecross Formation 107–117
Arran, Isle of
 magnetic anomalies 51–55
 rare-earth-bearing minerals 65–69
Ashgill, Ordovician ostracode faunas 15–24
- Baltica, and Laurentia, proximity 15–24
Bothkennar, Grangemouth 131–144
Breakish Formation 119–130
British Caledonides 145–156
British Tertiary Igneous Province 65–69
Broadford Formation, limestones 25–29
- calc–alkaline dykes 1–14
calcic catapleiite 89
Caledonian, igneous activity 1–14, 157–178
Caledonides, British 145–156
carse clay *see* Claret Formation
Claret Formation 131–144
crustal thickening, Laxfordian 31–50
crystal fractionation and accumulation 157–178
- Devensian, glaciation 97–106
diorite 157–178
Donald's Hill Ignimbrite Formation 179–186
Drummock Group (Ashgill series, *anceps* Biozone) 15–24
Durness Limestone, palaeokarst 25–29
dykes, hydrothermal alteration 1–14
- Eigg, Isle of, Lealt Shale Formation 63–64
- fergusonite, Arran 65–69
Firth of Forth 131–144
Flandrian 131–144
- gadolinite, Arran 65–69
geochemistry 107–117, 145–156
glaciation, Devensian 97–106
 para- and periglacial slope adjustment 79–83
Glenluce, xenoliths 57–62
Glen Tilt diorite 157–178
Glen Torridon glaciation 79–83
- Hebrides Basin, lower Lias 85–88
Hebrides, Inner 119–130
Hettangian 119–130

ice-sheet altitudes 97–106
igneous activity, Caledonian 1–14, 157–178
ignimbrites 179–186
Inner Hebrides 97–106, 119–130
intrusive complexes 157–178

Jura, Isle of 97–106
Jurassic
 lower Lias 85–88
 palaeokarst fill 25–29

Kildonnan Member, Eigg, position of Algal Bed 63–64
Kinneullea comma, redescription 15–24
K: Rb ratios 107–117

Lady Burn, ostracode faunas 15–24
lamprophyric dykes 1–14, 57–62
Laxfordian metamorphism, mylonitization 31–50
Lewisian Basement complex 107–117
Lias Group, Hebrides 85–88
limestone breccias, Skye 25–29
Loch Maree Group, Laxfordian metamorphism 31–50
Loch Tay Fault 157–178

magnetic anomalies, Arran 51–55
metabentonites, Silurian inliers 71–77
microdioritic dykes 1–14
Mull, Isle of 97–106
Mylonitization, LMG 31–50

Ordovician, Craighead inlier 15–24
ostracode faunas 15–24

Palaeogene volcanism 179–186
palaeosols 107–117
petrography 157–178
plutonism 157–178
Podowrinella fauna 71–77
psammites 1–14
pseudogravimetric transformation 51–55

Raasay, Isle of 119–130
rare-earth-bearing minerals 65–69

sedimentology 131–144
Silurian inliers, southern Midland Valley 71–77
Sinemurian 119–130
Skye, Isle of, palaeokarst 25–29
Southern Highland Group 1–14
Southern Uplands ‘basement’ 57–62

terranes 145–156
Torridon area, glaciation 79–83
Torridonian 107–117

volcanism
 Palaeogene 179–186
 silicic 179–186
 Siluro-Devonian 157–178

xenoliths, Southern Uplands ‘basement’ 57–62

zirconium aegirine 89

Scottish Journal of Geology

The primary aim of the *Journal* is to publish original papers on Scottish geology, but other topics of general or specialist interest are acceptable. Contributions should not normally exceed 12 journal pages; shorter papers are likely to be published more rapidly. 'Short Communications' of up to four pages need not be preceded by a 'synopsis'. Discussions of papers that appear in the *Journal* are invited and will be published quickly. Review papers are welcome, but authors contemplating submitting these should, at an early stage, contact the editorial board to discuss content, suitability and possible date of publication.

Instructions for contributors

Detailed instructions for contributors are published in the *Scottish Journal of Geology* Volume 29, Part 1, pp. 107–11. Intending authors must ensure that the format of their contributions complies with these instructions, as this will enable processing of the contributions with the minimum possible delay. Please note that periodical titles are now printed in full.

Discs: Discs of word-processed papers will be requested by the editor when the paper is accepted. Do not send the disc until requested to do so. Further details are available from the Staff Editor.

More information, including contents of recent issues can be found on the Journal's WWW page:
<http://www.geolsoc.org.uk/pubs/journals/sjg.htm>

All correspondence, typescripts and proofs should be addressed to The Editors, Scottish Journal of Geology, c/o Geological Society Publishing House, Unit 7, Brassmill Enterprise Centre, Brassmill Lane, Bath BA1 3JN.

Copies of the instructions can be obtained by writing to The Editors, Scottish Journal of Geology, c/o British Geological Survey, Murchison House, West Mains Road, Edinburgh EH9 3LA.

Back issues

Certain back numbers of the *Transactions of the Edinburgh Geological Society*, *Transactions of the Geological Society of Glasgow* and *Scottish Journal of Geology* are still available. A list of the prices and parts may be had on application to the secretaries of the Societies.

Book reviews

As space permits, the *Journal* will publish independent reviews of printed works that have a clear relevance to the geology of Scotland.
