

Scottish Journal of Geology
Volume 42, Part 2
Pages 89–192, 2006
(No. 123)

CONTENTS

STOKER, M., BRADWELL, T., WILSON, C., HARPER, C., SMITH, D. & BRETT, C. Pristine fjord landsystem revealed on the sea bed in the Summer Isles region, NW Scotland	89
QUINN, M. F. Lough Neagh: the site of a Cenozoic pull-apart basin	101
TANNER, P. W. G., LESLIE, A. G. & GILLESPIE, M. R. Structural setting and petrogenesis of the Ben Vuirich Granite Pluton of the Grampian Highlands: a pre-orogenic, rift-related intrusion	113
MARTÍNEZ-MONASTERIO, E., DUCK, R. W., STEPHENS, W. E. & WALDEN, J. Sediment provenance in the River Eden catchment, Scotland, using chemical characterization of Fe–Ti oxide minerals and magnetic measurements	137
LESLIE, A. G., KRABBENDAM, M. & SMITH, R. A. The Gaick Fold Complex: large-scale recumbent folds and their implications for Caledonian structural architecture in the Central Grampian Highlands	149
SMITH, R. A., JONES, N. S., MONAGHAN, A. A. & ARKLEY, S. Fluvial and aeolian deposition in the Siluro-Devonian Swanshaw Sandstone Formation, SW Scotland	161
ZANIEWSKI, A., REAVY, R. J. & HARRIS, A. L. Field relationships and emplacement of the Caledonian Ross of Mull Granite, Argyllshire	179
