

# Scottish Journal of Geology

Volume 50, Part 2

Pages 97–192, 2014

(No. 139)

## CONTENTS

STONE, P. The Southern Uplands Terrane in Scotland – a notional controversy revisited . . . . .	97
KRABBENDAM, M., LESLIE, A. G. & GOODENOUGH, K. M. Structure and stratigraphy of the Morar Group in Knoydart, NW Highlands: implications for the history of the Moine Nappe and stratigraphic links between the Moine and Torridonian successions. . . . .	125
MCATEER, C. A., DALY, J. S., FLOWERDEW, M. J., WHITEHOUSE, M. J. & MONAGHAN, N. M. Sedimentary provenance, age and possible correlation of the Iona Group SW Scotland. . . . .	143
BATCHELOR, R. A. Metabentonites from the Sandbian Stage, Upper Ordovician, in Scotland – a geochemical comparison with their equivalents in Baltoscandia . . . . .	159
MONAGHAN, A. A., BROWNE, M. A. E. & BARFOD, D. N. An improved chronology for the Arthur's Seat volcano and Carboniferous magmatism of the Midland Valley of Scotland . . . . .	165
SPINKS, S. C., PARNELL, J. & STILL, J. W. Redox-controlled selenide mineralization in the Upper Old Red Sandstone . . . . .	173
WILLS, S., BARRETT, P. M. & WALKER, A. New dinosaur and crocodylomorph material from the Middle Jurassic (Bathonian) Kilmaluag Formation, Skye, Scotland . . . . .	183
BOOK REVIEWS . . . . .	191
