

Scottish Journal of Geology
Volume 51, Part 1
Pages 1–104, 2015
(No. 140)

CONTENTS

EDITORIAL	1
DEWEY, J. F., DALZIEL, I. W. D., REAVY, R. J. & STRACHAN, R. A. The Neoproterozoic to Mid-Devonian evolution of Scotland: a review and unresolved issues	5
CANDELA, Y. & CRIGHTON, W. R. B. Revision of <i>Plumulites ruskini</i> Lamont, and new data from the Silurian of the Pentland Hills, Scotland	31
BRUSATTE, S. L., YOUNG, M. T., CHALLANDS, T. J., CLARK, N. D. L., FISCHER, V., FRASER, N. C., LISTON, J. J., MACFADYEN, C. C. J., ROSS, D. A., WALSH, S. & WILKINSON, M. Ichthyosaurs from the Jurassic of Skye, Scotland	43
COPE, J. C. W. The Upper Jurassic ammonite <i>Virgatopavlovia</i> from NE Scotland: implications for palaeogeography and phylogeny	57
WILLIAMS, G. E. Hydrothermal alteration of Britain's oldest palaeosols: saddle dolomite and smectite at the Lewisian–Torridon Group (early Neoproterozoic) unconformity, NW Scotland	63
STRACHAN, G. J. Debris flow activity and gully propagation: Glen Docherty, Wester Ross	69
HAYWARD, K. M. J. Identifying geological materials from nineteenth-century residential and industrial properties in south Glasgow: the M74 excavations	81
BANKS, D. William Thomson – father of thermogeology	95
BANKS, D. Horatio Scott Carslaw and the origins of the well function and line source heat function	100
