

Scottish Journal of Geology
Volume 56, Part 2
Pages 101–196, 2020
(No. 151)

CONTENTS

- FIEMAN, D. M., ATTAL, M. & ADDY, S.
Geomorphic response of a mountain gravel-bed river to an extreme
flood in Aberdeenshire, Scotland101
- TARLATI, S., BENETTI, S., CALLARD, S. L., COFAIGH, C. Ó, DUNLOP, P.,
GEORGIOPOULOU, A., EDWARDS, R., VAN LANDEGHEM, K., SAHER, M.,
CHIVERRELL, R., FABEL, D., MORETON, S., MORGAN, S. & CLARK, C. D.
Final deglaciation of the Malin Sea through meltwater release
and calving events117
- WATSON, S. M. & WESTAWAY, R.
Borehole temperature log from the Glasgow Geothermal Energy
Research Field Site: a record of past changes to ground surface
temperature caused by urban development134
- CLACK, J. A. & SMITHSON, T. R.
A new large embolomere from East Kirkton.153
- SURLYK, F. & BRUHN, R.
Flood-generated hyperpycnal delta front sands of the Brora
Arenaceous Formation (upper Callovian–middle Oxfordian)
of the Inner Moray Firth, Scotland, record the onset of rifting159
- MORTON, N., MITTA, V. V. & UNDERHILL, J. R.
Ammonite occurrences in North Sea cores: implications for
Jurassic Arctic–Mediterranean marine seaway connectivity175
